PARKING VIOLATION PENALTIES AND RELATED FEES

Assembly Bill 408, effective July 1, 1993, amended the California Vehicle Code to decriminalize parking tickets and to eliminate criminal court procedures for the enforcement of such violations, such that the issuance, collection and enforcement of parking or standing vehicle violations became a civil matter under the California Vehicle Code.

Section 40203.5 (a) of the Vehicle Code requires the City Council to establish a schedule of parking penalties for parking violations, late payment penalties, administrative fees, and other related charges for parking violations. It is the intent of the City of Santa Barbara that the penalties established herein shall reflect a reasonable and good faith effort to establish appropriate penalties.

PHOTO AND FILM SHOOTS

The City of Santa Barbara offers one stop photo and film/video permitting with Parks and Recreation as the lead department accepting applications, collecting fees, issuing the permits and coordinating as many internal logistics among City departments such as Police, Fire, Public Works and Waterfront as possible for administrative convenience.

Fees for photo and film/video shoots include both permit and “facility use” fees. Permit fees apply to all photo and film/video shoots. If you plan to shoot in a City park, beach, Stearns Wharf or the Harbor, a facility use fee is charged in addition to the permit fee. Fee rates depend on the location where photography or filming occurs. See the applicable Facility Use Fee charts below.

In situations where City personnel may be required to be present during the shoot, a fee for staff will be charged. See the Staff and Miscellaneous section below for further information.

All permits must be accompanied with proof of comprehensive general liability insurance. Minimum limits are \$1M combined single-limit bodily injury and property damage for each occurrence.

For De La Guerra Plaza and Mackenzie Park, gas, water and electrical hook ups may be made available for large public events. The activation of these utilities can either be accomplished through a licensed general contractor (or a licensed plumbing and licensed electrical contractor), or the Parks and Recreation Department can facilitate the hook-up requests through the Public Works Department. If the former is chosen, the Public Works Department will charge fees to supervise and inspect the work before and after the activation and require that a permit be obtained from the Building and Safety Department. A \$100-\$500 deposit is required to cover the estimated usage of the utilities with the amount is based on the number of utility boxes activated. Additional information on the fees and how to obtain the permit will be provided.

If the latter is chosen, approval is dependent upon Public Works' ability to schedule the necessary personnel to complete the required work for the event within the given timeframe. Requests must be submitted a minimum of four weeks in advance of the event. The base cost to activate/deactivate the plumbing is \$494 for the first box, plus \$103 per additional box. This includes vehicles unloading or loading equipment, supplies or passengers, or other types of vehicles related to the event.

Unauthorized driving or parking of vehicles in park or beach areas related to permitted events will be cited and fined \$50 per vehicle. Unauthorized driving or parking may include vehicles without access permits or authorized vehicles, which do not comply with driving conditions as determined in the permit. WATER RATES AND FEES

Chapter 14.08 of the Santa Barbara Municipal Code authorizes the City Council to set fees for water meters and water service;

Section 14.12.010 of the Santa Barbara Municipal Code authorizes the City Council to set the rate for City water for private fire services when the use of a meter is not required; and

The City does currently and wishes to continue to have in effect a water rate structure that reflects an adequate supply of water and promotes the efficient use of such water by its customers.

DEFINITIONS

Wherever used in this resolution the following quoted words shall have the meanings set forth below:

- A. "Account holder" means the person or entity responsible for payment for water service at a particular property, as shown in the City's water billing records.
- B. "Base allotment" means the average monthly consumption on record with the City for the most recent complete off-peak period, or such other level of consumption determined by the Director to represent the average monthly off-peak water usage by a particular customer. An off-peak period for any given customer shall be a period comprised of the service periods charged on bills dated January through June.
- C. "Director" means the Director of the Department of Public Works or his designated representative.
- D. "Hcf" means one hundred cubic feet.
- E. "Service" or "water service" means water provided by or through the water distribution facilities of the City.

1. WATER SERVICE RATES

The following provisions shall govern all fees related to water service for metered connections to the City water system:

- A. **MONTHLY SERVICE CHARGE.** A monthly service charge shall be collected for all connections, without regard to actual water use, if any, as follows:

| <u>Size of Water Service Meter</u> | <u>Rate (\$/meter/month)</u> |
|------------------------------------|------------------------------|
| 5/8" | \$11.55 |
| 3/4" | \$17.35 |
| 1" | \$28.89 |
| 1 1/2" | \$57.77 |
| 2" | \$92.45 |
| 3" | \$184.89 |
| 4" | \$288.89 |
| 6" | \$577.78 |
| 8" | \$924.44 |
| 10" | \$1,328.89 |

Monthly service charges for connections located outside the City limits shall be 130% of the above charges.

B. **USER CLASSIFICATIONS.** For the purposes of assessing metered water charges provided for in Subsection C below, user classifications shall be as follows:

1. Residential Single Family Detached: Applicable to all meters serving one detached dwelling unit.
2. Multifamily 1-4 Units: Applicable to all meters serving two or more detached dwelling units and all meters serving 1, 2, 3, or 4 attached dwelling units.
3. Multifamily Over 4 Units: Applicable to all meters serving five or more dwelling units, any of which are attached.
4. Commercial: Applicable, without regard to meter size, to all accounts serving mercantile buildings, motels and other short term lodging establishments, office buildings, institutional buildings, schools, churches, and other commercial establishments.
5. Industrial: Applicable to all meters serving laundries (other than self-service laundries), manufacturing facilities, and other industrial facilities.
6. Irrigation-Potable: Applicable to meters substantially limited to outdoor water use and subclassified as provided in Subparagraph a. through d. below. All meters under this classification shall be subject to interruption upon declaration of a Stage Three Drought Condition. There shall be no connection between a meter served under this classification and any dwelling or commercial or industrial structure.

- a. Irrigation-Agriculture: Applicable only to Potable Irrigation meters that serve bona fide commercial agricultural enterprises, including nurseries. A bona fide commercial agricultural enterprise is one that grows and sells one or more type of agricultural or horticultural products, for the purpose of producing income from the sale of these products. The amount of water made available in each block of metered water usage under this sub-classification shall be based solely on the area that is planted and irrigated as part of the enterprise. As a condition of the right to receive Irrigation-Agriculture service, the Director may require an Account holder to submit to the Director any documentary or other evidence necessary to establish to a reasonable degree of certainty that the property served by the meter is being used to conduct a bona fide commercial agricultural enterprise as defined above. Such evidence may include tax returns, bills of sale, or similar documents.
 - b. Irrigation - Recreation: Applicable only to Potable Irrigation meters that serve areas used primarily for passive or active recreational purposes, including parks, playgrounds, golf courses, school yards, and publicly owned open spaces and landscaped areas. The amount of water made available in each block of metered water usage under this sub-classification shall be based solely on the number of acres of planted area served by the meter.
 - c. Irrigation-Commercial: Applicable to Potable Irrigation meters serving properties that are primarily commercial, industrial, or institutional in use.
 - d. Irrigation-Residential: Applicable to Potable Irrigation meters serving properties that are primarily residential in use or are zoned for residential use.
- 7. Recycled Water: Applicable to all meters providing recycled wastewater.
 - 8. Outside City Limits: Applicable to all meters serving properties that are outside the City Limits of the City of Santa Barbara.
- C. **METERED WATER CHARGE.** In addition to all other charges imposed by Chapter 14.08 of the Santa Barbara Municipal Code, including but not limited to the monthly service charges set forth in Subsection I.A. above, water use shall be charged according to the following block rates for those user classifications defined in Subsection B above. Usage shall be measured in units of 100 cubic feet (hcf).

| Usage Quantities (Monthly, except as specified) | Rate (\$/hcf) |
|--|------------------|
| 1. <u>Residential Single Family</u> | |
| First 4 hcf | 2.74 |
| Next 16 hcf | 4.60 |
| Over 20 hcf | 4.84 |
| 2. <u>Multi-Family 1-4 Dwelling Units</u> | |

| Next 240 hcf/acre/year | 4.60 |
| All other use | 4.84 |

On July 1 of each year, the beginning first block allotment for each agricultural customer shall be augmented by the amount of any unused first block allotment for the prior fiscal year, provided however that: i) no such augmentation shall occur if the Public Works Director has determined that the amount of water in storage in Lake Cachuma was less than 100,000 acre-feet as of the end of the prior fiscal year, and ii) any such augmentation shall be limited such that the beginning first block allotment shall not exceed 200 percent of the regular first block allotment based on 870 hcf/acre/year.

b. Irrigation - Recreation

| | |
|---------------------------|------|

Metered water shall be billed as if it were used through the associated residential meter(s) such that any allotments not used on an aggregate basis by the associated account(s) shall be available to the irrigation account. Alternatively, an account holder may elect to be charged on the basis of the following acreage allotment, in which case such election shall remain in effect for at least twelve months:

|-------------------------|------|
| First 654 hcf/acre/year | 4.60 |
| All other use | 4.84 |

7. Recycled Water

All hcf

1.74

8. Outside City Limits. Metered water charges for service to properties located outside the City limits shall be 130% of any corresponding in-City rate.

D. **FAILURE TO CONNECT TO RECYCLED WATER SYSTEM.** Where the Director has determined that use of recycled water is feasible at and on a particular property and has notified the account holder for the meter serving such property of this fact, and thereafter the user has failed to substitute recycled water use for potable water use, the charge for provision of potable water use shall be double the otherwise applicable charge for metered water.

E. **GRANTING OF ADJUSTMENTS TO EXTRAORDINARY WATER CHARGES.** Upon an account holder's application that is 1) received within 45 days of a relevant billing date, 2) submitted on a form provided by the Finance Director, and 3) supported by detailed written documentation, the Finance Director, or a designee of the Finance Director, shall have the authority to make adjustments to extraordinary water charges in the event of hidden leaks, undetected line breaks, or other circumstances that are demonstrated to be beyond the reasonable control of the account holder. Such adjustments shall be made in accordance with guidelines approved by the City Administrator's Office. However, such adjustments shall in no case result in a cost per Hcf that is less than the lowest unit rate for residential customers located within the City limits. The decision of the Finance Director, or said designee, regarding any such adjustment shall be final. Adjustments shall be allowed under this section only once per account, per account holder.

F. **MISCELLANEOUS SERVICES.** The following miscellaneous fees related to water service shall be charged and collected upon demand:

3. WATER SERVICE CONNECTIONS

All determinations of the size and location of water service connections, water main connections, and meters shall be subject to the approval of the Director. The Director may waive the fee for a service connection or main connection to the recycled water system upon a finding that such connection will promote the efficient and beneficial use of recycled water and will displace existing usage of the City's potable water supply. Fees related to water service connection to the City water system are as follows and are in addition to buy-in fees established by the City Council in separate resolutions:

In the event the existing water main or water service main connection is damaged during attachment, an additional fee of \$200 per lineal foot of water line needing repair or replacement shall be charged to the person(s) who caused such damage.

WATER AND SEWER BUY-IN FEES

Sections 14.08.050 and 14.48.010 of the Municipal Code authorize the establishment by resolution of fees to be paid for connections to the City water and sewer systems, respectively; and water and sewer buy-in fees are appropriately assessed on the basis of the flow capacity of the meter serving a given use.

The City Council, upon recommendation of the Water Commission, has determined the appropriate charges to be assessed for new connections to the City water and sewer systems for the purpose of buying into the existing assets of those systems.

1. BUY-IN RATES

Except as provided herein, the following water and sewer buy-in fees shall be collected prior to the Public Works Director's approval to: 1) connect to the City water or sewer system, 2) to commence a discharge into the City sewer system from new construction or from a newly created dwelling unit, or 3) increase the size of an existing meter. Such buy-in fees shall be in addition to fees assessed under other resolutions for the labor, materials, equipment, and other City costs necessary to construct the actual connection to the water or sewer system.

| | | Water Buy-in Fee | Sewer Buy-in Fee |
|---|--|--------------------------|------------------|
| Multi-Family Residential | Multi-Family dwelling unit served by its own 1" or larger meter: | \$3,579 | \$2,240 |
| | All other Multi-Family dwelling units, per unit: | \$1,431 | \$1,143 |

| | 10" meter: | \$322,579 | \$257,631 |

2. REGULATIONS REGARDING ASSESSMENT OF BUY-IN FEES

The following regulations shall apply to the assessment of water and sewer buy-in fees:

- A. The term “multi-family residential dwelling unit” as used herein shall mean any attached dwelling unit, including attached condominiums and secondary dwelling units.
- B. Water and sewer buy-in fees shall not apply to:
 - 1. Connections to serve facilities owned and operated by City programs funded by the General Fund; and
 - 2. Water system connections for public fire hydrants, private fire hydrants, and private fire lines.
- C. A sewer buy-in fee shall not apply to a water meter that is classified as “Irrigation” in the City billing system.
- D. A water buy-in fee shall not apply to a connection to the City’s reclaimed water distribution system when such connection is made for the purpose of displacing existing usage of water from the City’s potable water distribution system.
- E. In the case of an application for a water or sewer connection to serve a parcel where connections already exist, credit shall be given for existing connections such that the water and sewer buy-in fees shall be based on the net increase in meter capacity for non-residential meters, or in the case of residential meters, the net increase in number of dwelling units. There shall be no buy-in fee assessed for the installation of a meter to serve a legally existing residential dwelling unit that is already served by another City water meter when such installation is done for the purpose of providing separate metering to such dwelling unit.
- F. A reduction in meter size may be approved by the Public Works Director in accordance with applicable resolutions; however, there shall be no refund of buy-in fees upon such reduction.
- G. In a case where the buy-in fee cannot be reasonably determined using the meter capacity method contained herein, a water and/or sewer buy-in fee may be determined by estimating the net new usage of water, converting such usage to an equivalent number of 5/8” meters, and multiplying said equivalent number times the buy-in fee for a 5/8” meter.
- H. For the period from July 1, 2007 through June 30, 2009, the Public Works Director may approve a 50% reduction of the sewer buy-in fee for a sewer connection that results in the discontinued use and the abandonment, per City standards, of a functioning and legally existing septic tank or other on-site sewage disposal system. It shall be the responsibility of the property owner to apply for such reduction in accordance with procedures established by the Public Works Director and to perform such abandonment in accordance with City requirements, including but not limited to inspection of such abandonment.

A new fourteen (14) day cumulative period at the base transient rate shall start to run if the vessel returns after being absent from the harbor for more than five (5) consecutive days. In the case of commercial fishing vessels actively and solely engaged in commercial fishing, no days out will be required to remain at the base transient rate when proof in advance of slip registration in the form of two California Department of Fish and Game commercial fish tickets every two (2) weeks is shown. If proof is not provided, the commercial vessel will be considered not actively fishing and subject to the fees charged non-commercial fishing vessels.

4. For the purpose of this subsection, a day shall be deemed to be a twenty-four (24) hour period commencing at twelve noon. All fees are due and payable in advance.
